

## GYNAECOLGY

### LAQ :

- 1) Chronic pelvic pain : Evaluation and management
- 2) Carcinoma cervix : Aetiology, clinical features, staging, investigations and management (4 repeat)
- 3) Menorrhagia : Definition, causes, investigations and management (3 repeat)
- 4) PCOS : Management
- 5) Uterovaginal prolapsed and 3<sup>rd</sup> degree uterine prolapse : Causes, investigations and management (4 repeat)
- 6) PID : Definition, aetiology, diagnosis and management (3 repeat)
- 7) Ovarian malignancy : Clinical features and management (2 repeat)
- 8) Infertility in females : Causes and treatment (3 repeat)
- 9) Endometrial Cancer with d/d of post menopausal bleeding : Causes and management (2 repeat)
- 10) Dysmenorrhea : Definition, causes, clinical features and treatment (2 repeat)
- 11) Tuberculosis of FT, Gonorrhoea causes and treatment
- 12) Ovarian Cyst : Complications and management of twisted ovarian cyst
- 13) Dysfunctional uterine bleeding and d/d of AUB
- 14) Infertility in couple : Investigations, tests of ovulation and drug treatment of ovulation
- 15) Endometrial Cancer : Aetiology, clinical features, investigations and management (2 repeat)
- 16) IUCD : Indications, contraindications and complications
- 17) Lump in abdomen : D/d and management (2 repeat)
- 18) MTP in 1<sup>st</sup> trimester
- 19) Physiology of Menstruation
- 20) Laparoscopy : Indications
- 21) Fibroid : Clinical features and management (2 repeat)
- 22) Benign ovarian tumour : Clinical features and management
- 23) Ectopic pregnancy rupture
- 24) Fractional curettage
- 25) Sterilization methods : Note on scalpel vasectomy
- 26) Vaginal discharge : Investigations
- 27) Endometriosis : Definition and management

### SAQ :

- 1) Genital Tuberculosis (2 repeat)
- 2) Turners Syndrome (3 repeat)
- 3) COC pills
- 4) Colposcopy (2 repeat)
- 5) Myomectomy (2 repeat)
- 6) Tuberculous Salpingitis
- 7) LGN Intrauterine System
- 8) Vesicular Mole : Follow up

- 9) Spasmodic Dysmenorrhea (2 repeat)
- 10) Tubal Patency Tests
- 11) Hysteroscopy (3 repeat)
- 12) IUCD Complications (2 repeat)
- 13) HPV Vaccine
- 14) Post Menopausal Bleeding : Causes (2 repeat)
- 15) Pap Smear (2 repeat)
- 16) MTP Act (3 repeat)
- 17) Contraception for breast feeding woman
- 18) Three Swab Test
- 19) Female Condom
- 20) Decubitus Ulcer
- 21) Monilia Vaginitis (2 repeat)
- 22) Cervical Erosion (2 repeat)
- 23) Red Degeneration of Fibroid
- 24) Benign Ovarian Cyst : Clinical Features (2 repeat)
- 25) Induction of Ovulation (3 repeat)
- 26) Emergency Contraception (3 repeat)
- 27) Trichomonas Vaginitis (3 repeat)
- 28) Imperforate Hymen
- 29) Diagnosis of Ovulation
- 30) Methotrexate
- 31) Hirsutism
- 32) Fibroid Uterus Complications
- 33) Acute PID Management
- 34) Klinefelters Syndrome
- 35) Manual Vacuum Aspiration
- 36) Menstrual Regulation (2 repeat)
- 37) Dermoid Cyst (5 repeat)
- 38) Tumour Markers
- 39) Supports of Uterus (2 repeat)
- 40) Danazol
- 41) Candida Vaginitis (4 repeat)
- 42) HSG
- 43) FIGO Staging of Carcinoma Cervix (3 repeat)
- 44) Endometriosis : Treatment (2 repeat)
- 45) Semen Analysis (3 repeat)
- 46) Injectable Contraceptives
- 47) Copper T
- 48) Secretory Phase
- 49) Carcinoma Cervix : Predisposition Factors
- 50) Benefits of Oral Contraceptives
- 51) Minilap Tubal Ligation

- 52) Condom
- 53) Cryptomenorrhea
- 54) Vault Prolapse
- 55) Laparoscopy in Gynaecology
- 56) Missing Threads in IUCD
- 57) Haematocolpos
- 58) Fornical Mass d/d in Young Patient
- 59) Genital Prolapse : Pre operative Management
- 60) Infertility in Male : Causes
- 61) Infertility in Female : Causes
- 62) Ruptured Tubal Ectopic Pregnancy
- 63) Submucous Fibroid
- 64) Cervical Cancer Screening Methods
- 65) Atrophic Vaginitis
- 66) Twisted Ovarian Tumour Treatment
- 67) MTP 1<sup>st</sup> Trimester Methods
- 68) Manchester Operation
- 69) Asherman Syndrome
- 70) Dysmenorrhea
- 71) Metropathia Haemorrhagica
- 72) Barrier Contraception
- 73) Carcinoma in situ
