

OBSTETRICS

LAQ :

- 1) PPH : Definition, Causes and Management (5 repeat)
- 2) Preeclampsia : Definition, C/f and Management (3 repeat)
- 3) Abortion : Definition, Aetiology and Management of Incomplete Abortion
- 4) ANC and Labour in Woman having Heart Diseases
- 5) Twin Pregnancy : Aetiology, Diagnosis and Management (3 repeat)
- 6) Deep Transverse Arrest : Causes and Management -365
- 7) Maternal Mortality : Definition, Causes and Preventions
- 8) Cervical Incompetency : Management
- 9) Puerperal Pyrexia : Definition, Causes and Management (2 repeat)
- 10) Tubal Ectopic Pregnancy : Causes, C/f, Diagnosis and Management
- 11) IUGR : Causes, Diagnosis and Management
- 12) Anaemia in Pregnancy : Investigations, Complications and Management (2 repeat)
- 13) Abruptio Placenta : Diagnosis, Investigations and Management
- 14) Physiological Changes in Pregnancy in CVS and Management of MS in Pregnancy
- 15) Placenta Previa : C/f, Diagnosis and Management
- 16) Eclampsia : C/f, Management and Complications (4 repeat)
- 17) Previous LSCS : History, C/f, Investigations and Management (2 repeat)
- 18) Preterm Labour : Complications and Management
- 19) PIH : Definition, Complications and Management (2 repeat)
- 20) Breech Presentation (Uncomplicated) : Causes and Management - 374
- 21) Post-term Pregnancy : Definition, Diagnosis and Management
- 22) Ruptured Uterus : Causes and Management
- 23) Obstructed Labour : Definition, Causes, Diagnosis and Management (2 repeat)
- 24) Accidental Haemorrhage (Abruptio Placentae) : Definition, C/f and Management
- 25) Normal Labour Definition with 1st Stage of Labour : Physiology and Clinical Course
- 26) Incompetent Os : Definition, Diagnosis and Management
- 27) Placenta : Structure and Functions
- 28) ANC Definition and ANC in Uncomplicated Pregnancy

SAQ :

- 1) Parenteral Iron Therapy (3 repeat)
- 2) Hyperemesis Gravidarum
- 3) Neonatal Resuscitation (3 repeat)
- 4) ANC Routine
- 5) Oxytocin
- 6) Functions of Placenta (2 repeat)
- 7) Central Placenta Previa : Management
- 8) Anencephaly

- 9) APGAR Score (4 repeat)
- 10) Antiphospholipid Syndrome
- 11) Hydrocephalus (2 repeat) - 406
- 12) Amniotic Fluid Index
- 13) Sickle Cell Crisis in Pregnancy
- 14) Threatened Abortion
- 15) TRIPLE Markers in Pregnancy (2 repeat)
- 16) Partograph (4 repeat)
- 17) Coomb's Test
- 18) Neonatal Jaundice (4 repeat)
- 19) Glucose Challenge Test
- 20) Eclampsia Management
- 21) Birth Asphyxia (2 repeat)
- 22) Non Stress Test (2 repeat)
- 23) PCPNDT Act
- 24) Ventouse
- 25) Tocolytics : Mechanism of Action and Toxicity
- 26) Forceps and Vacuum Application : Indications, Advantages and Disadvantages
- 27) Maternal Mortality Rate : Definition, Causes and Prevention (4 repeat)
- 28) Selection of Previous LSCS case for Vaginal Delivery
- 29) Preterm Labour (3 repeat)
- 30) Ruptured Tubal Ectopic Pregnancy : Diagnosis and Management (2 repeat)
- 31) Biophysical Profile (3 repeat)
- 32) Cervical Encircalage
- 33) Magnesium Sulphate
- 34) External Cephalic Version
- 35) Low Forceps Application Pre-requisites
- 36) Breast Feeding : Advantages and Disadvantage (2 repeat)
- 37) Safe Motherhood
- 38) LSCS Indications - 589
- 39) Latent Phase of Labour
- 40) Prevention of PPH
- 41) PNC
- 42) Clinical Pelvimetry (2 repeat)
- 43) Cephalhaematoma (2 repeat)
- 44) Baby Friendly Hospital Initiative (2 repeat)
- 45) Episiotomy (2 repeat)
- 46) Missed Abortion (2 repeat)
- 47) IUFD
- 48) PPH Management
- 49) USG in 1st Trimester (2 repeat)
- 50) Anti D Immunoglobulins
- 51) Prevention of HIV Transmission from Mother to Child (2 repeat)

- 52) Inevitable Abortion
- 53) Down's Syndrome
- 54) Vacuum Extraction
- 55) Absolute Signs of Pregnancy
- 56) Caput Succedaneum
- 57) 3rd Stage of Labour Physiology
- 58) Neonatal Injuries
- 59) Outlet Forceps
- 60) Deep Transverse Arrest : Definition, Causes, Diagnosis and Management
- 61) Acute Inversion of Uterus - 420
- 62) PPH : High Risk Factors and Treatment (2 repeat)
- 63) Anaemia in Pregnancy : Social Factors
- 64) Abruptio Placentae
- 65) Separation of Placenta with Brandt-Andrew Method
- 66) Neglected Shoulder Presentation
- 67) Hydatiform Mole
- 68) Perinatal Mortality
- 69) Antepartum Foetal Surveillance
- 70) Induction of Labour : Indications and Methods
